Demographic data for this property is provided in four formats.

- Census 2010 Report
- Census ACS 2008-2012
- Fields not included in EJScreen Census reports
- Map

Census 2010 Report displays data from EPA's Environment Justice screening tool (EJScreen). EJScreen pulls data from the American Community Survey (ACS), a statistical survey conducted by the United States Census Bureau. The Census Bureau's 2010 data is reported by Census blocks, which are aggregated into block groups by the EJScreen tool. Block group is an area defined by the Census Bureau that usually has in the range of 600-3,000 people living in it. The US is divided into more than 200,000 block groups. Click the Report link in any column to view the Census 2010 Report for block groups located within an n-mile radius around the property.

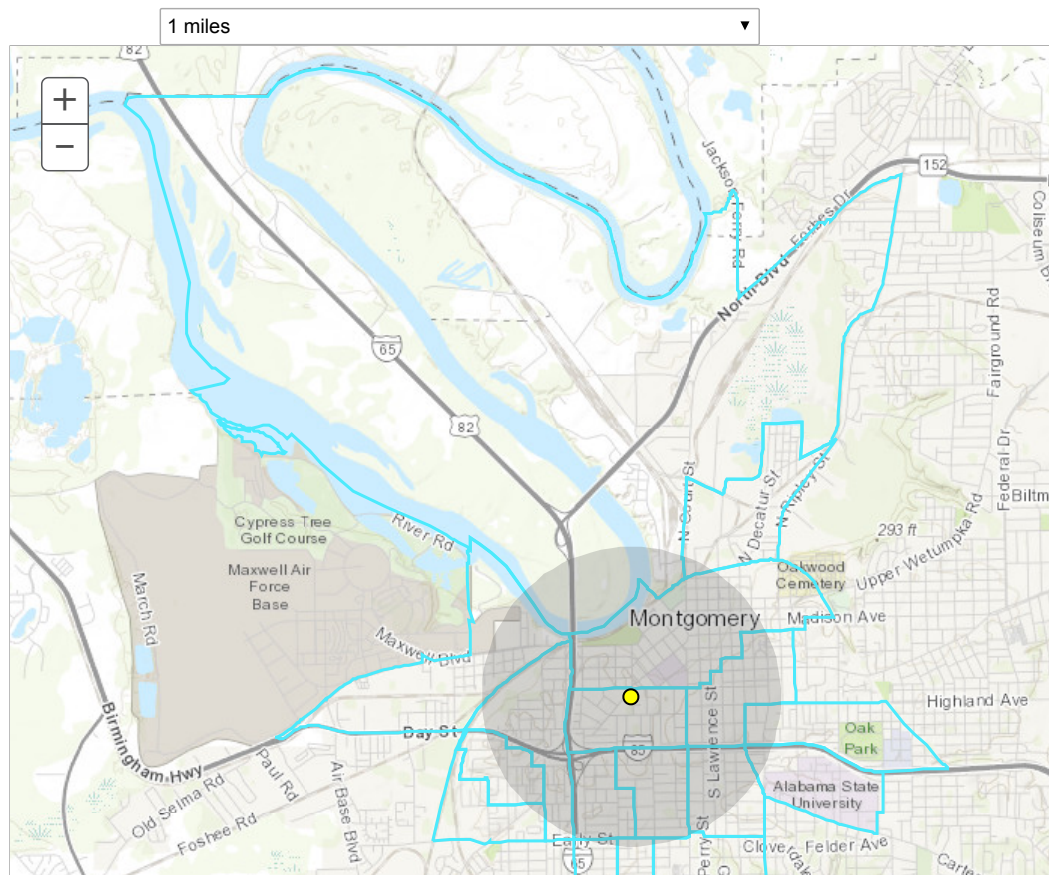

Census ACS 2008-2012 displays data from EJScreen. The Census ACS 2008-2012 provides a 5-year summary of data by block group. Click the Report link in any column to view the Census ACS 2008-2012 report for block groups located within an n-mile radius around the property.

The **additional fields** in the table above are not included in the two Census reports. These data are extracted directly from ACS. Values represent demographics of block groups located within half-mile increments from the property.

- **Low-income** - number or percent of population in households where the household income is less than or equal to twice the federal poverty level.
- **Below Poverty Level** - number or percentage of households that fall below the poverty level.
- **Vacant Housing Units** - Number of vacant housing units.
- **Unemployed** - number and percent of civilians at least 16 years old who (1) were neither "at work" nor "with a job but not at work" during the reference week, and (2) were actively looking for work during the last 4 weeks, and (3) were available to start a job.
- **Median income** - the amount that divides the income distribution into two equal groups, half having income above that amount, and half having income below that amount. The median income used here is the weighted average of the Median Incomes reported for Block Groups (based on total population).
- **Total 25 Over** - population of individuals that are over the age of 25.

The map below shows the highlighted 2010 Census Block Groups that are used in the demographics calculations found in the table above. Select a radius from the drop down list to see the block groups included. For more information about how the demographic data were calculated, please see [About the Data](#).
